## THE HERITAGE DIFFERENCE

For over 50 years, Heritage Christian has excelled at preparing students for an academic future that includes higher education. As a college preparatory school with approximately 450 students, HCS boasts an average 100% graduation rate with 95% of our graduates attending a four-year college.

Our high school offers a rigorous curriculum that uniquely combines academic excellence with spiritual development. Our teachers integrate biblical principles throughout their work in the classroom while also disciplining their students individually. Additionally, many faculty and staff members are involved in extracurricular activities, impacting student life beyond the classroom.

At Heritage, we prepare students both academically and spiritually to serve and lead after graduation. This includes having fun during their years at Heritage! Our favorite high school traditions include homecoming week with class competitions like lip sync, a special Christmas chapel, a senior retreat, the senior parade, and opportunities to mentor younger students. In addition to our valuable weekly chapels, our students participate in two annual Spiritual Emphasis Weeks to set the spiritual focus for each semester.

Our six academy programs provide students an opportunity to focus their coursework on a particular field of interest. Another unique and meaningful experience for our high school students is Interterm Week. For a few days in the spring semester, freshman and sophomore students dive into local service projects while taking specialized classes, juniors job shadow or intern in an area of interest, and seniors take an exciting trip to New York.

While academic preparation is a clear priority at Heritage, CEO Jeff Freeman says the school employs a holistic approach to education that incorporates spiritual instruction into its academic training. "Our focus on integrating exceptional academics and college readiness with a biblical worldview speaks to the excellence at Heritage," explains Freeman. "At Heritage, you do not have to sacrifice one to get the other."
